

THE ESCAPE AFFAIR

The Game

Race against time to solve puzzles and various team building tasks to escape the island.

The Objectives

Your team is stranded on an island and in order to escape you must gain some essential survival skills, solve puzzles to receive codes and find hidden spots. The island has a live interactive map on your tablet showing the activity area locations. Teams need to find these locations and obtain their survival skills. Including water purification, first aid, shelter, food and signaling, and optional raft building. Items washed up on the shore will help you complete each of these challenges, and doing so successfully will give you vital survival skills. Survival Spots can only be obtained by solving puzzles / cracking codes or attending team activities.

Teams need to gain enough knowledge of each aspect in order to survive. Too much time at a station and they will lose the opportunity to escape

The Best

The winning team will be the team with the most collected points that are collected by learning skills to survive on and escape the island.
