The Game

The objective of the game is to correctly source all ingredients required for your culinary task. Our **Culinary Challenge** is an experience that puts team work and communication skills to the fore, whilst providing many opportunities for fun and laughter.

Everyone knows that a blend of the finest ingredients creates deliciousness. Just like your company, a great blend of people who are able to communicate and work together on agreed targets is your recipe to success.

“When you have good ingredients, cooking doesn’t require a lot of instruction because you can never go very wrong.”

Alice Waters

The Objectives

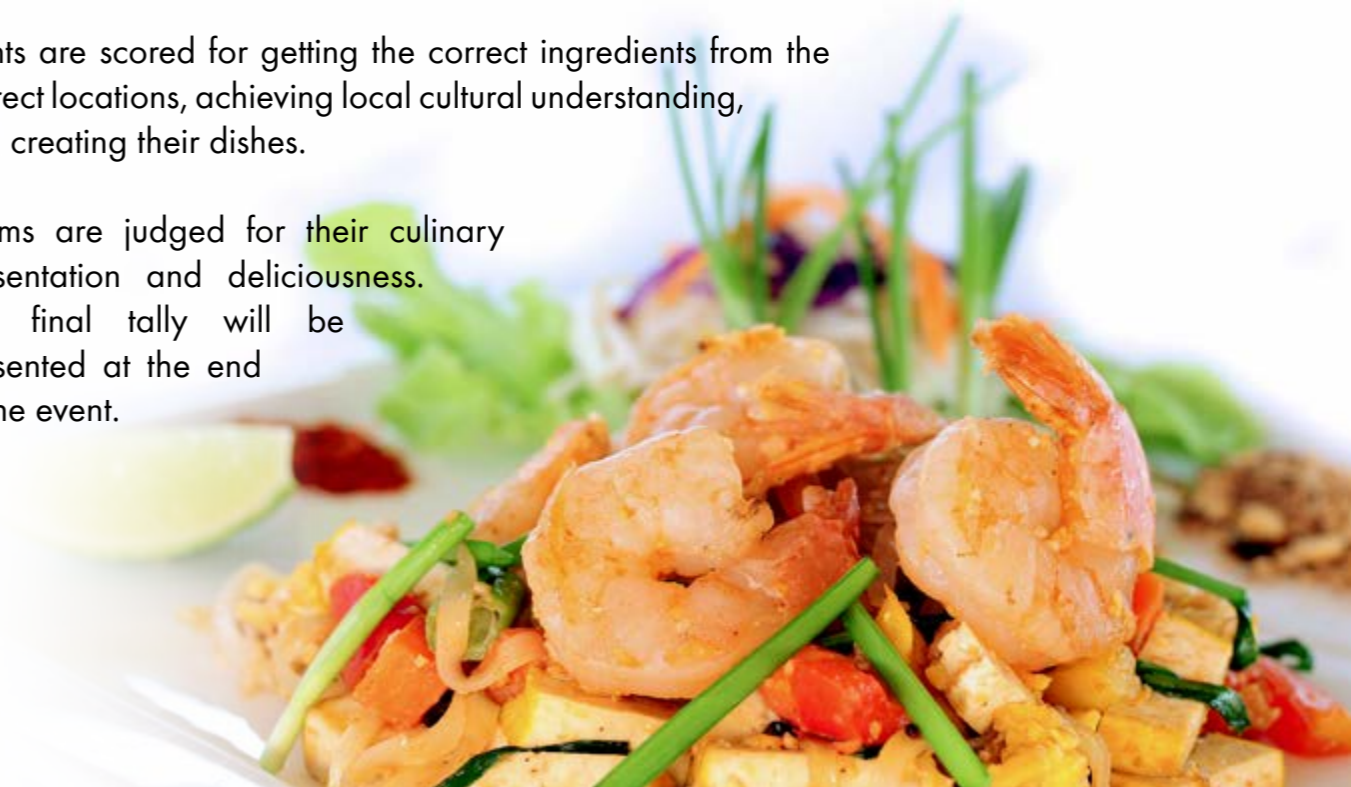

Teams must plan and design their route to local markets and locations noted in their tablets in order to purchase all items on the shopping list provided in their tablet tasks. Following this, teams must make their way to our culinary school to learn how to blend their regional ingredients into delicious dishes. Talk with us to customize your event to suit your company targets.

The Best

Points are scored for getting the correct ingredients from the correct locations, achieving local cultural understanding, and creating their dishes.

Teams are judged for their culinary presentation and deliciousness. The final tally will be presented at the end of the event.
