REMOTE GLOBAL

The Game

When the most forward thinker of his time, Jules Verne wrote 'Around the World in Eighty Days', we doubt he could have imagined that now, with the help of technology, your team can travel the world in 90 minutes.

Welcome to the Global Remote Tabtour challenge. An inter-connecting and innovative remote team building activity that takes your team around the world digitally. Travel to various destinations to learn and complete cultural questions and team tasks. Learn and earn travel experience points while keeping track of the competing teams.

The Objectives

It is mandatory for players to have fun! In connected teams (remotely or locally), travel the digital globe to outrace the other teams and become the winner.

Experience points are earned by solving the tasks correctly using inputs Text, Multiple choice, Picture, or Video. Hidden locations may appear once a series of destinations have been solved for extra points.

Work together efficiently by communicating effectively, and setting clear responsibilities such as captain, photographer, reader, time manager, or strategist etc.

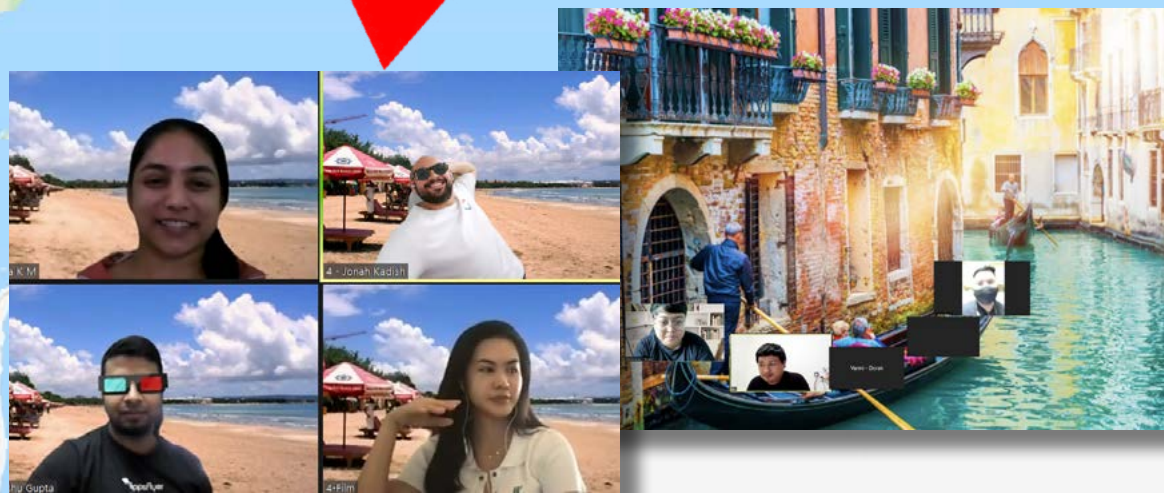

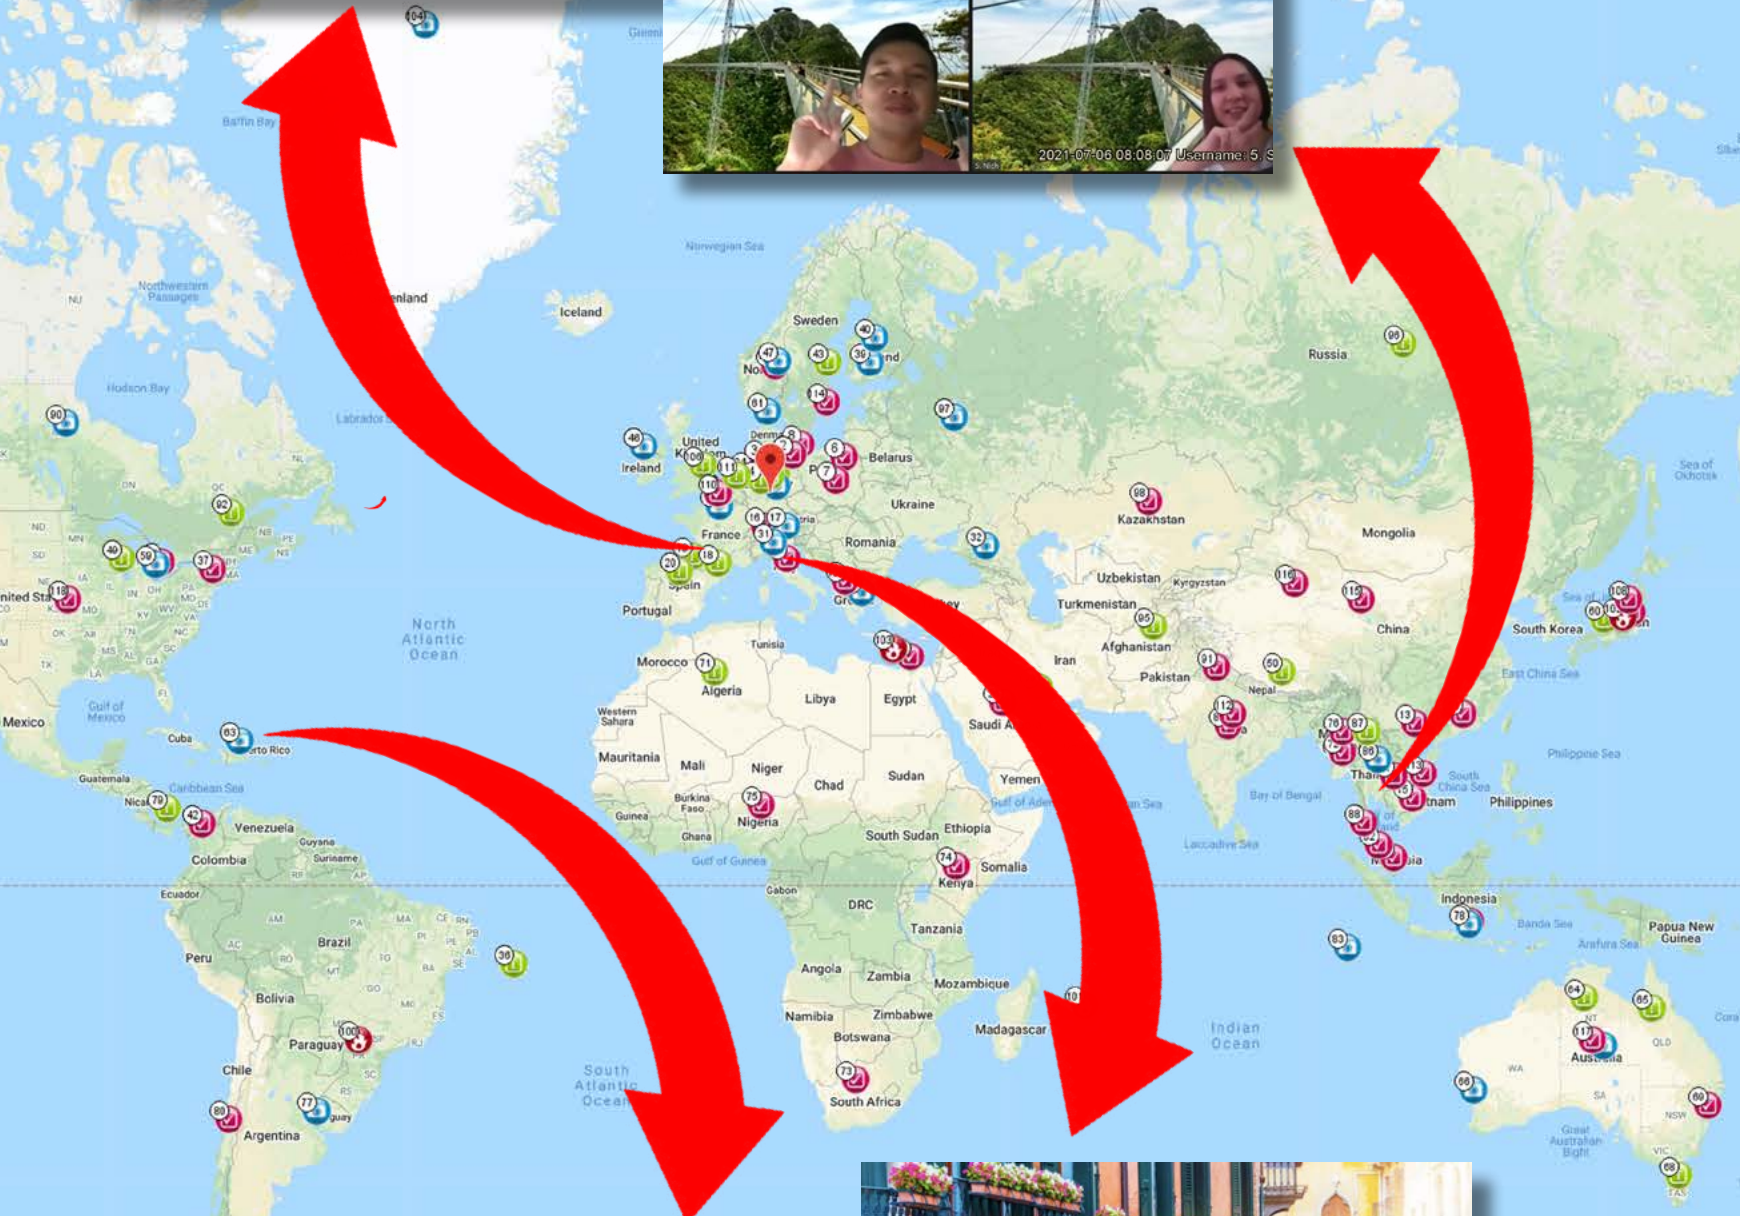

All teams meet back in the main terminal at end for an engaging showdown and view show all teams footage and media.

The Best

The team who collects the most travel experience points throughout the duration of the game will be declared the winner after the showdown finalé.

The Benefits

- Remote team work
- Communication, planning, and leadership
- Engaging, and fun reconnecting with the remote team
