BANGKOK EXPLORER

tabtourthailand.com BANGKOK EXPLORER

Bangkok Explorer offers an innovative and interactive tour using new technology with a large screen tablet-pc as your guide. Using a GPS supported program called tabtour, you can easily find all the interesting locations. Tasks and events are provided at each location to encourage interaction with your environment.

This unique program creates opportunities for you to be inquisitive, to interact with locals, and will show you aspects of the city and culture that you are unlikely to hear about otherwise. **Bangkok Explorer** breaks from the traditional sightseeing tours in order to encourage interaction with the city's people and culture on your schedule .

While enjoying your tour, be assured that your experiences will be recorded for you. The photos taken during your tour will be provided on conclusion.
