“ This workshop exceeded all expectations.
Professional trainers and facilitators,
well designed activities and great support.”

Decision Making

This course provides participants with an in-depth introduction to key decision-making tools allowing them to collaborate more effectively across teams. The Business Model Canvas for designing new products or businesses and the Grid to give a holistic view of the business.

“The quality of decision is like the well-timed swoop of a falcon which enables it to strike and destroy its victim.”

Sun Tzu

The Program

Conducted by Yodchai Sudhidhanakul, founding member of Nokair and former CEO of Nok Scoot, partial owner of Koh Mak.

Participants will solve various problems and learn from various case studies where comparisons can be made to fit their work situation. Debriefs will be made after each activity (70% active, 30% theory).

Key Takeaways

Discover the nine elements of the business model canvas and apply the concept in sample cases. They will practice the design of a sample product based on the model.

Get an overview of the nine perspectives of the Grid to better understand the relationship between customer, markets, organizations and their impact on the desirability, profitability, and longevity of a business.

Understand why some companies are performing better than others and use this knowledge to manage their teams and advance their company.

Symbiosis

noun

Interaction between organisms living in close and long-term biological association, typically to the advantage of both.

"The acquired symbiosis in our team resulted in a mutual sense of oneness."
